

Over-the-counter genetic testing

A free public event

Thursday 25th September 2014, 6.30pm.

Haydn Ellis Building, Cardiff University

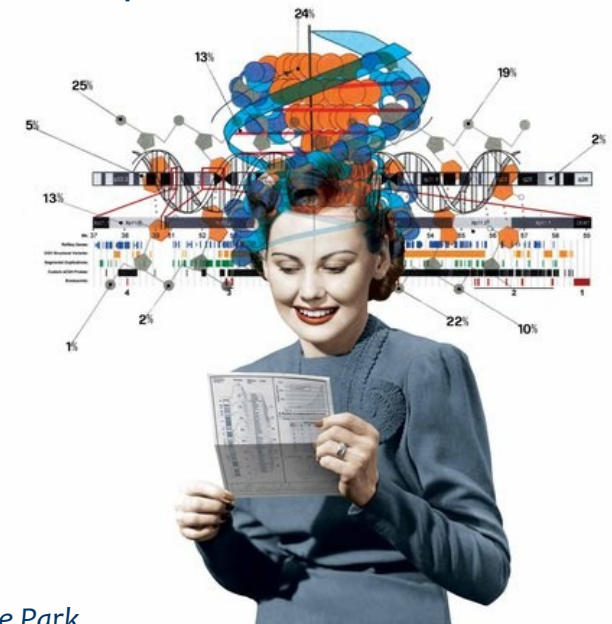

Join us to hear talks from clinicians and researchers on what is meant by over-the-counter genetic testing; what sort of information this testing can reveal and what it might mean for you and your family; the implications for healthcare; and the ethical issues surrounding it. There will also be time for discussion and questions with our experts.

This event is free of charge but please register at: www.eventbrite.co.uk

(search for *over-the-counter genetic testing*)

Tea/coffee from 6pm; talks start at 6.30pm
