

# SCIENCE in health

OCTOBER 2018 - MARCH 2019

## PUBLIC LECTURE SERIES

**A series of FREE public lectures with two main aims:**

- To open up areas of concern in health care
- To present new research on health issues to the public

## The Welsh plan to transform patient care with genomics

Panel of speakers from Genomics Partnership Wales and The 100,000 Genomes Project in Wales

**Thursday 8 November, 7pm, Large Chemistry Lecture Theatre,  
Main University Building, Park Place, Cardiff. CF10 3AT**

The Genomics for Precision Medicine Strategy was launched by the Cabinet Secretary for Health and Social Services, Vaughan Gething in July 2017, and sets out the Welsh Government's ambitious plan "to create a sustainable, internationally-competitive environment for genetics and genomics to improve health and healthcare provision for the people of Wales".

Genomics Partnership Wales (GPW) has since been established to ensure a united approach to Genomics in Wales and represents the coming together of a number of organisations across several disciplines, to deliver a programme of work that will enable the ambition and commitment laid out in the Genomics Strategy to be realised.

This public talk will highlight the recent progress being made across our Public Health and NHS services, as well as Wales' contribution to the landmark 100K Genomes initiative. Patient and Public Involvement is also a priority for Genomics Partnership Wales – details of how to become involved will be shared at this meeting.

There will be a Question & Answer session at the end of the lecture – questions are welcomed in English & Welsh.

# GWYDDONIAETH mewn iechyd

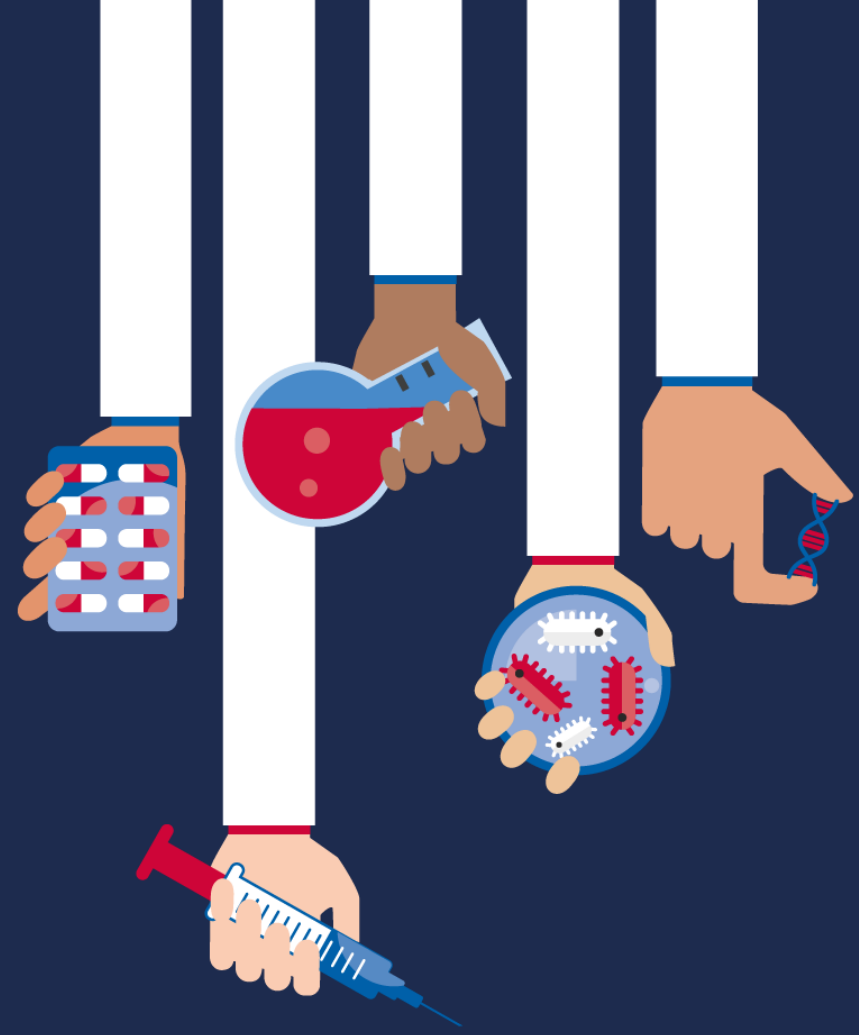

HYDREF 2018 - MAWRTH 2019

## CYFRES O DDARLITHOEDD CYHOEDDUS

### Cyfres o ddarlithoedd cyhoeddus AM DDIM, gyda dau brif nod:

- Amlygu meysydd pryder mewn gofal iechyd
- Cyflwyno ymchwil newydd ar faterion iechyd i'r cyhoedd

## Cynllun Cymru i drawsnewid gofal cleifion gyda genomeg

Panel o siaradwyr o Bartneriaeth Genomeg Cymru a Phrosiect 100,000 Genom yng Nghymru

**Nos Iau 8 Tachwedd, 7pm, Darlithfa Cemeg Fawr, Prif Adeilad y Brifysgol, Plas y Parc, Caerdydd. CF10 3AT**

Lansiwyd y Strategaeth Genomeg ar gyfer Meddygaeth Fanwl gan Ysgrifennydd y Cabinet dros Iechyd a Gwasanaethau Cymdeithasol, Vaughan Gething, ym mis Gorffennaf 2017. Mae'r Strategaeth yn amlinellu cynllun uchelgeisiol Llywodraeth Cymru i "greu amgylchedd cynaliadwy sy'n gystadleuol ar lefel ryngwladol i geneteg a genomeg, er mwyn gwella iechyd a'r ddarpariaeth gofal iechyd i bobl Cymru".

Ers hynny sefydlwyd Partneriaeth Genomeg Cymru (GPW) i sicrhau ymagwedd unedig at Genomeg yng Nghymru. Mae'r Bartneriaeth yn cynrychioli nifer o sefydliadau sydd wedi dod ynghyd ar draws sawl disgyblaeth i gynnal rhaglen waith fydd yn ei gwneud hi'n bosibl cyflawni'r uchelgeisiau a'r ymrwymadau a amlinellir yn y Strategaeth Genomeg.

Bydd y ddarlith gyhoeddus hon yn trafod y cynnydd yn ddiweddar ar draws ein gwasanaethau Iechyd Cyhoeddus a GIG, a chyfraniad Cymru at y fenter bwysig 100,000 Genom. Mae cynnwys y Cyhoeddus a Chleifion hefyd yn flaenoriaeth ar gyfer Partneriaeth Genomeg Cymru – bydd manylion am sut i gymryd rhan yn cael eu rhannu yn y cyfarfod hwn. Bydd sesiwn Holi ac Ateb ar ddiwedd y ddarlith – bydd pob croeso i chi ofyn cwestiynau yn Gymraeg neu yn Saesneg.
